Sight words build speed and fluency when reading. Accuracy, speed, and fluency in reading increase reading comprehension. The sight words are a collection of words that a child should learn to recognize without sounding out the letters. The sight words are both common, frequently used words and foundational words that a child can use to build a vocabulary. Combining sight words with phonics instruction increases a child's speed and fluency in reading.

Teaching Sight Words as a Part of Comprehensive Reading

Word recognition plays an important role in learning to read. Although not a substitute for the critical skill of being able to decode unfamiliar words (referred to as word identification), recognizing some words automatically, or on sight, contributes to reading effortlessly and with understanding (McArthur et al., 2015).
